QUICKSTRIKE NIAGARA

TEAM 6978

Thank you for all your support of our team! Without your sponsorship, this build season would not be possible. Here is what we have been working on over the past week.

STEMley Cup

Last week team 6978 competed at the STEMley Cup in Hamilton and was chosen for alliance 5, and we made it to the quarter finals before getting knocked out of contention for the win by alliance 7.

Overcoming struggles

During one of our qualification matches our robot's intake took a massive hit, cracking one of our hexshafts in half, and severely bending another. Our build team worked hard to fix those parts between matches. We were able to bend the one shaft back into place, and other members of the team worked with other teams and event managers to get a new hexshaft cut in time for the next match.

New Driveteam

We took the opportunity during STEMley to introduce new members of the team to driving and operating, giving them valuable insight into what the drive team experiences, and what the expectations of the drive team are. We are excited to introduce new members to our drive team in the upcoming season!

Team Spirit

We are proud of the team members who arrived to STEMley wearing Quickstrike merchandise, showing their team pride and spirit. We loved seeing everyone's Halloween costumes as well, and we hope everyone had a fun and safe Halloween!
